S2 Robotic Case Packer In Detail

features

- Robust Welded & Powder Coated Steel Frame
- Allen Bradley or Siemens Controls
- Engineered Robot End of Arm Tooling
- Ignition Based HMI
- Integrated Safety System
- Minimal Change Over Time
- Integrated Vision System
- Toolless Changeover
- Automatic Case Conveyance Width Adjustment
- Storage for 100+ Product Recipes
- Machine Status Lighting
- Remote Diagnostics
- Audible Alarm System
- Modular Design for Future Robot Additions

options

- Integrated Case Erector
- Integrated Case Sealer
- Integrated Check Weigh & Reject System
- Vertical Packing (Soldier Pack)
- Stainless Steel Frame
- On Board Compressor/Vacuum Blower
- Case Labeling
- ERP Integration
- Additional HMI Interfaces

specs

Max Speed

40 ppm – single
120 ppm – multi

Bag Weight

< 5 KG

Power supply

480V, 3 Phase, 60Hz, 60AMPS
